Approach Note

Market Assessment & Feasibility of Advanced Oncology, Organ Transplants and Rare Diseases Hospital

vps | lakeshore Global Lifecare

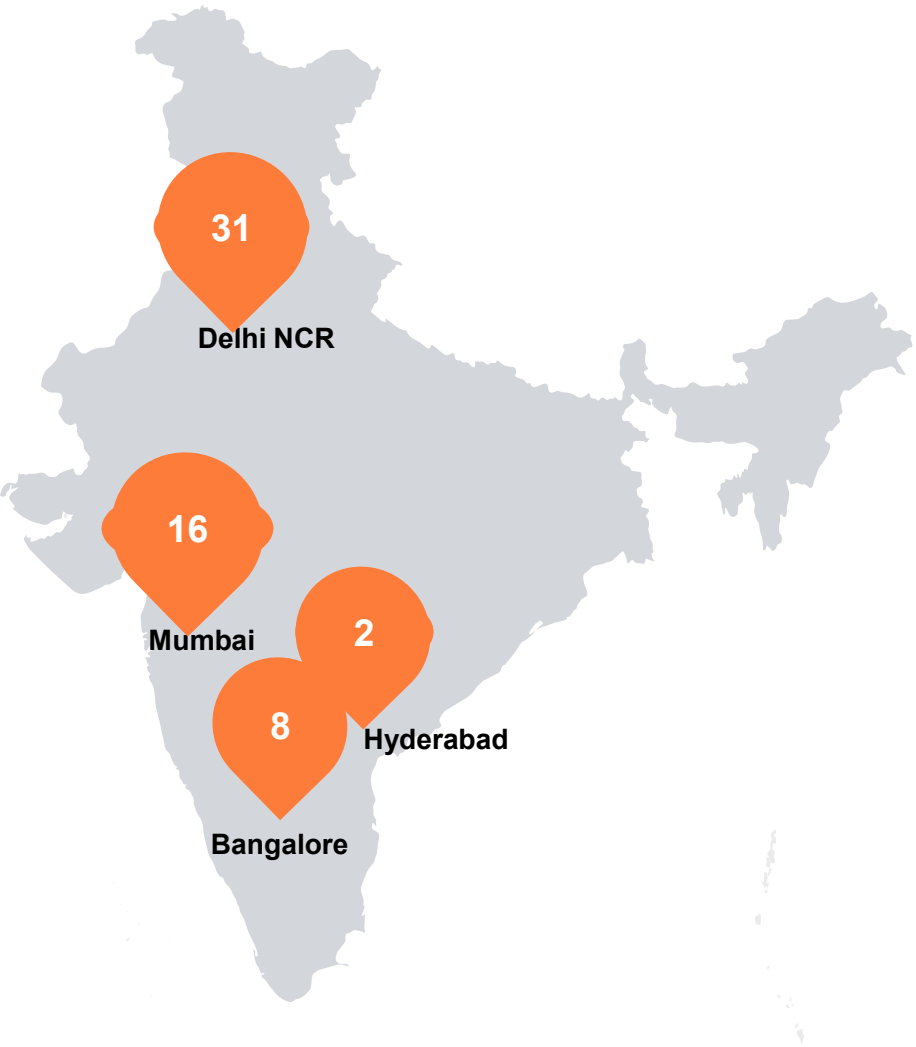
April 2026

Draft and Confidential

Scope of work pending review from Risk and Legal team

Our experience

PwC has a 55+ member dedicated healthcare team with domain expertise across Pan India



The healthcare team is led by Dr Rana Mehta, who is a partner and the leader of the healthcare practice in India

3 Partners
4 Directors
6 Associate Directors
8 Principal Consultants
16 Senior Consultants
15 Consultants

Team members have rich experience in commercial due diligence, market assessment, healthcare operations, supply chain, medical devices and digital health

Trusted advisor to clients across the value chain (provider, payer, investor, government bodies)

The PwC health services consulting team is 55+ member and transaction services team is 30+ members strong and brings over 150+ years hospital operations experience; combined with ~250 years of advisory experience

We have an extensive understanding of the healthcare industry and have executed projects in 60+ cities in India

Feasibility study for a Proton therapy centre in Chennai

Feasibility study for a Proton therapy centre in Hyderabad

Feasibility study for a Proton therapy centre in Lucknow

India entry opportunity assessment *in the oncology space*

Understanding the current and evolving oncology market *landscape in* ***Delhi NCR region***

Feasibility assessment of Carbon Ion therapy *proposed at Tata Medical Centre, Kolkata and business plan preparation*

Feasibility study for a cancer centre *in Northeast India*

Market assessment & business plan for setting an oncology hospital *in Raipur*

Strategy assessment for CK Birla to expand in oncology and neurosciences

Market assessment, business plan and transaction structuring for establishing a cancer hospital *on PPP in Odisha*

Market assessment and feasibility *for an innovative first of kind breast cancer focused centre in Delhi NCR region*

Partner search for leading multispecialty hospital in south India for managing the oncology segment on O&M model

Evaluation & validation of the market assessment *report and business plan for a* ***cancer hospital in Philippines***

Market assessment & business plan *for setting an oncology hospital in Manila,* ***Philippines*** *in PPP mode*

Assistance in setting up a dedicated oncology hospital for ***Royal Government of Bhutan in Thimphu***

International Assignment

TATA TRUSTS

- **Business plan evaluation** for a cancer hospital in Tirupati
- **Business plan review** of different unit levels i.e., L1, L2 and L3
- **Market mapping & feasibility** for a proposed apex oncology centre in Bhubaneshwar and district prioritization for L3 centers
- **Market assessment and business plan review** for Assam for Tata Trusts (ACCF - Cancer Care Foundation)
- **Business plan review** for proposed cancer centers across 4-5 cities
- Feasibility assessment of **Carbon Ion therapy and Proton** for Tata Medical Center, Kolkata and business plan preparation for the same

Background and Context

Background and Context

Background

VPS Group (client) has a land parcel admeasuring around 1 acre in Qutub Institution Area

The client is evaluating to set up a 280 beds Precision Medicine Centre with high-end oncology, haemato-oncology, BMT, precision oncology, organ transplants, rare metabolic & genetics diseases and neuro-muscular program and intends to understand the healthcare dynamics of the market and strategic recommendations on service-line mix

Context

In view of the same, client has reached out to PwC to support on the following scope of work:

- Healthcare Market Overview including oncology and organ transplant market size in Delhi NCR
- Detailed market assessment (competition and supply assessment including price benchmarks)
- Need gap analysis and recommendations
- Detailed Business Plan

PwC has worked on various projects in this space, has executed multiple projects in the region

With this background, PwC is pleased to submit an approach note highlighting the customized approach that it will be adopting for the above scope of work

Scope and Approach

Key questions…

1

What is the market potential and how will it evolve going forward?

- How has been the **growth** of the high-end oncology and organ transplantation segment in Delhi?
- What are the **key trends** w.r.t. to oncology, haemato-oncology – BMT, organ transplantation, **rare metabolic and genetics diseases, neuro-muscular program, precision oncology** and how is the market expected to evolve going forward?
- What is the **need gap** for radiation oncology and nuclear medicine in the micro market?

2

How is the performance of the existing key market players?

- Who are the **leading players** in the micro market?
- Who are the **key competitors** and how has been their focus area?
- What is their operational performance with respect to **revenues, ARPOB?**
- What are the **volumes & ARPP** for key procedures in the micro market?
- Who are the leading clinicians driving BMT volumes?

3

What would the project economics be ?

- Which **service line mix** should the proposed hospital focus on and what would be the **project capex**?
- What would be a **realistic business plan** based on the market potential?
- What are some of the **key risks** and **sensitivities**?

Indicative scope of work

Workstream-1	Workstream-2	Workstream-3	Workstream-4
Market Overview & Demand Assessment	**Competition & Supply Assessment**	**Need gap assessment**	**Business plan**
Market overview	Supply Assessment	Need Gap Analysis	Capex assumptions
High level demand supply gap	Competition Assessment	Emerging Healthcare trends	Revenue assumptions
Overview of rare diseases services and precision oncology*	Mapping of volumes and pricepoints	Recommendation on service line mix	Cost assumptions
			Sensitivity analysis

Rare diseases – metabolic & clinical genomics, Neuromuscular

Indicative scope of work

Key areas

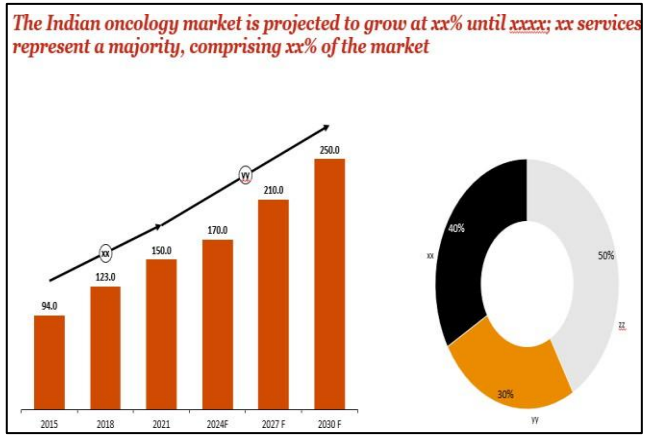
- ***Healthcare Overview and Demand Assessment***
- Competition and Supply Assessment
- Need Gap Assessment
- Business Plan

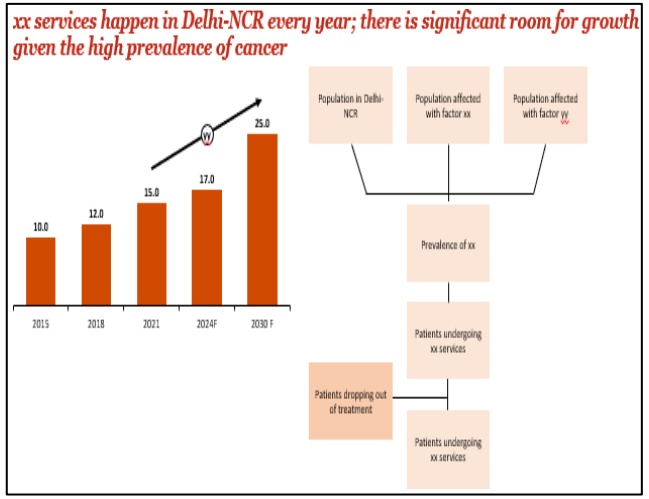
Scope of work

Market Overview of Delhi NCR with a focus on micro market of South Delhi

- **High-level overview of the oncology and organ transplantation market**
  - Market size, growth outlook and trends
  - Split across medical, surgical and radiation oncology
  - Haemato-oncology, BMT and CAR-T therapy market overview
  - Kidney, Liver, Heart & Lung transplant market outlook and trends
- **Macro indicators** including demography *(age profile, gender mix)* and paying capacity *(per capita income)*
- **Infrastructure growth** and **upcoming technological** offerings in the region
- Advancement in oncology including Precision Oncology, CAR-T Therapy, Medical Genomics and molecular diagnostics, offered by the leading players
- Overview of rare diseases such as genetics, metabolic, immunological disorders and neuro-muscular diseases programs offered by the leading hospitals
- Overview of infrastructure growth and upcoming technologies in the region:
  - MR LINAC
  - Proton / Carbon Ion therapy
  - Gamma Knife

Illustrative





* Per capita income and income segmentation through Neilsen database for Delhi NCR would be used as a proxy for the micro market

Indicative scope of work

Key areas	Scope of work	Illustrative

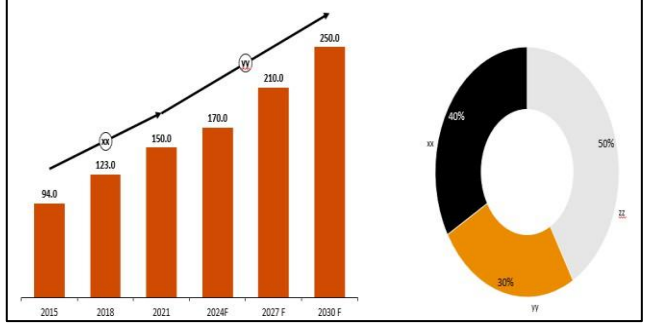
- ***Healthcare Overview and Demand Assessment***
- Competition and Supply Assessment
- Need Gap Assessment
- Business Plan

Demand Assessment

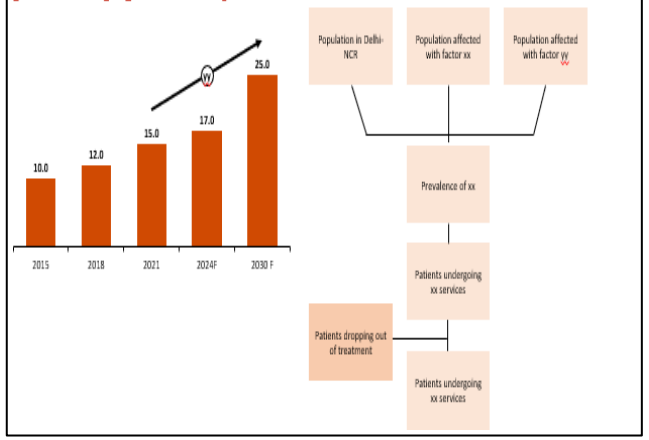
- **Factors driving demand**
- **Estimation of the catchment area for advanced oncology and organ transplants**
- **Estimation of the current and future demand for:**
  - Linear accelerators
  - PET CT
  - Quality beds for oncology services and BMT
  - Hemato-oncology, CAR-T
  - Organ transplantation
- **Referral pattern** in and around the catchment, factors propelling patient flow in & out of the area.
- **Payor profile** based on the trends for the key hospitals in the region
- **Government schemes** in the region and its uptake in the region
- Overview of **recent and future quaternary care-related greenfield / brownfield projects** in the region in the next 3-5 years

Deliverable: Advanced Oncology, Organ Transplants & Rare Disease Market Overview and Demand Assessment Report.

The Indian oncology market is projected to grow at xx% until xxxx; xx services represent a majority, comprising xx% of the market



xx services happen in Delhi-NCR every year; there is significant room for growth given the high prevalence of cancer



* Per capita income and income segmentation through Neilsen database for Delhi NCR would be used as a proxy for the micro market

Indicative scope of work

Key areas

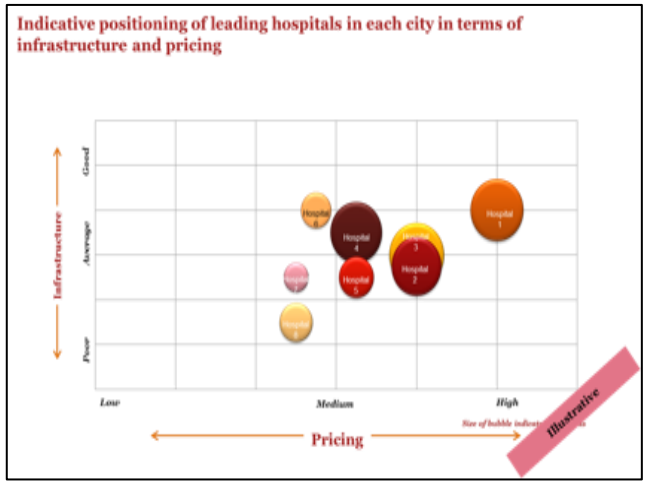
- Healthcare Overview and Demand Assessment
- ***Competition and Supply Assessment***
- Need Gap Assessment
- Business Plan

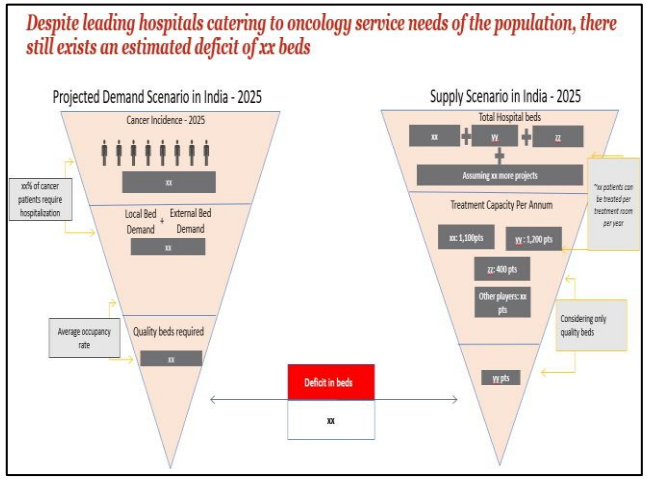
Scope of work

Competition and Supply Assessment

- **Healthcare providers providing comprehensive oncology services (standalone/multispecialty/shop in shop)**
- Mapping of existing supply - **LINAC, PET Scan, Proton Therapy in Delhi NCR and South Delhi micro market**
- **Profile 4-5 key hospitals** providing comprehensive oncology services, advanced oncology such as CAR-T, precision oncology, organ transplant in the micro market
- **Indicative service mix / list of** leading hospitals having medical genomics, precision oncology, metabolic diseases and neuro muscular diseases programs
- **Estimated revenue, EBITDA margins, ARPOB** for leading quaternary care hospitals
- **Hospital-wise volumes for select comparable key hospitals:** Estimated cases/month for medical and haemato-oncology including BMT, surgical and radiation oncology, organ transplants (kidney, liver, heart and lung), neuromuscular program, rare diseases, precision oncology (solid tumors)
- **Typical average price per procedure** and pricing trend for medical oncology (chemotherapy cycles), surgical oncology (such as breast, head & neck cases), Radiation Oncology (IGRT/IMRT), and other modalities like PET CT, organ transplants (renal, liver, heart and lung), BMT, hemat-onco therapy, CAR-T Therapy etc.
- **Payment mix** (out of pocket, insurance, govt. scheme etc.)
- **Leading hospital-wise engagement model** – Full-time/visiting with fee for service etc.
- **Relative positioning** of key oncology providers in the micro market
- **Expansion/growth plans** by competitors

Illustrative





Deliverable: Competition & Supply Assessment Report with volume and price benchmarks.

Indicative scope of work

Key areas

- Healthcare Overview and Demand Assessment
- Competition and Supply Assessment
- ***Need Gap Assessment***
- Business Plan

Scope of work

Need gap analysis

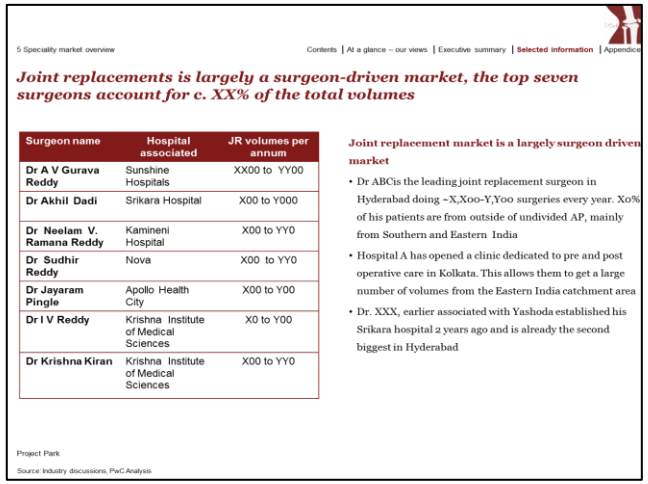
- Analysis of demand vis-à-vis supply in the future using trends such as varying demographics/income patterns and potential shifts in primary/secondary catchment areas to identify **gaps in the requirement of linear accelerator, quality oncology-focused beds, organ transplants, precision diagnostics and genomics and treatment for rare diseases**
- **Identify gaps in the available medical technology and talents in the area** and its dependency on another region
- Dependency on other cities (inflow) for advanced haemto-oncology care and organ transplants

Emerging Healthcare Trends

- Emerging **healthcare trends** that are **not being addressed** by existing supply in the market and subsequent **gaps in the technology (medical equipment)** employed by existing providers compared to the **latest technologies available** (MR LINAC, PET CT, SPECT, Gamma, CAR-T, medical genomics, etc.)
- Identify the key **differentiators/USP** for the proposed hospital project
- Suggest 'go / no-go' wrt to service mix, facility mix (general oncology vs super specialized focus, rare diseases breadth and COEs, precision oncology)

Deliverable: Need Gap & Strategic Positioning Note.

Illustrative



5 Speciality market overview

Contents | At a glance – our views | Executive summary | Selected information | Appendice

Joint replacements is largely a surgeon-driven market, the top seven surgeons account for c. XX% of the total volumes

Surgeon name	Hospital associated	JR volumes per annum
Dr A V Gurava Reddy	Sunshine Hospitals	XX00 to YY00
Dr Akhil Dadi	Srikara Hospital	X00 to Y000
Dr Neelam V. Ramana Reddy	Kamineni Hospital	X00 to YY0
Dr Sudhir Reddy	Nova	X00 to YY0
Dr Jayaram Pingle	Apollo Health City	X00 to Y00
Dr I V Reddy	Krishna Institute of Medical Sciences	X0 to Y00
Dr Krishna Kiran	Krishna Institute of Medical Sciences	X00 to YY0

Joint replacement market is a largely surgeon driven market

- Dr ABCis the leading joint replacement surgeon in Hyderabad doing ~X,Xoo-Y,Yoo surgeries every year. Xo% of his patients are from outside of undivided AP, mainly from Southern and Eastern India
- Hospital A has opened a clinic dedicated to pre and post operative care in Kolkata. This allows them to get a large number of volumes from the Eastern India catchment area
- Dr. XXX, earlier associated with Yashoda established his Srikara hospital 2 years ago and is already the second biggest in Hyderabad

Source: PwC Analysis

Indicative scope of work

Key areas

- Healthcare Overview and Demand Assessment
- Competition and Supply Assessment
- Need Gap Assessment
- ***Business Plan***

Scope of work

Prepare a detailed 10-year Business plan.

Identify the number of beds required in the proposed facility and project phasing

Capex Assumptions

- Provide recommendations on the service mix, bed mix
- Also, provide recommendations on appropriate technology (diagnostic and treatment) and build capex assumptions in the business plan
- Infrastructure, appropriate medical equipment (Linac, PET, NGS) & information technology

Cost Assumptions

- Material/consumable costs
- Expenses: Doctor/Employee/ Administrative/ Marketing, other direct and indirect cost heads

Revenue Assumptions

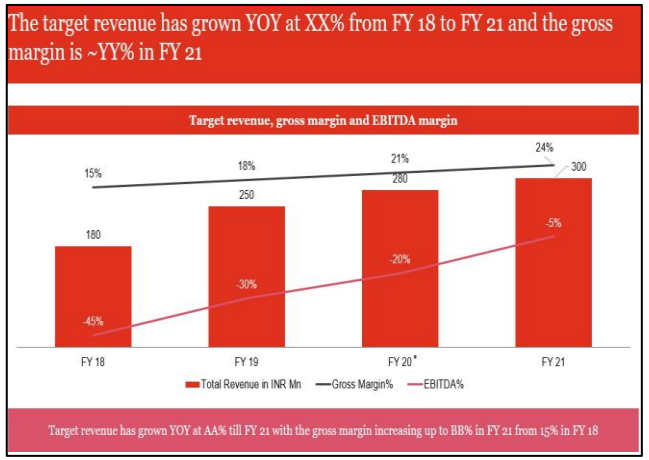
- Capacity, occupancy, utilization ramp up and inflation
- Tariffs in comparison with the competition
- Payor mix – Cash, TPA and government schemes

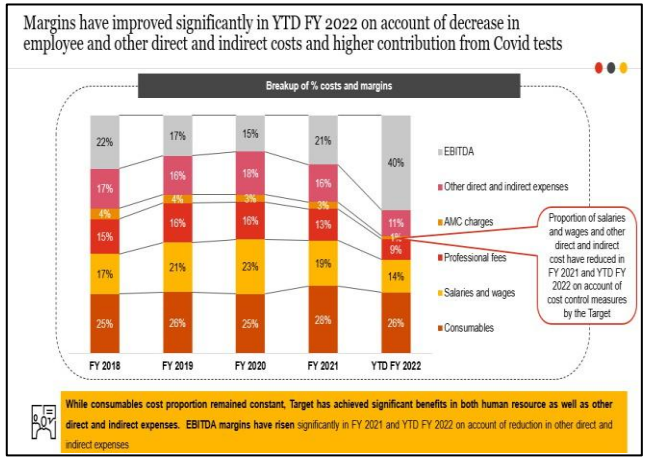
Sensitivity Analysis

- Impact of adjustments to 4 – 5 key assumptions on financial plan output
- High level assessment of the key KPIs - IRR, cost per bed, ARPOB for hospital project
- Provide business case sensitivity [no of linacs, genetic testing equipment (NGS, Sagner sequencing)]

Deliverable: Detailed business plan with sensitivities

Illustrative





Our approach will leverage both primary & secondary information to achieve insightful research and analysis

Client/ Target Management Meetings

- Senior management meetings and focused group discussions to gain a rapid understanding of the business and to discuss key issues and hypotheses

Data Analysis

- Analysis of competitor info to provide insightful details or evaluate impacts

Desk Research

- Access to all published market research and company specific information
- Dedicated information specialist, library and intranet linked to all key sources
- Leverage the learnings from India experience

Primary Research

- Meetings with healthcare providers including key stakeholders of Leading Multi/Single Specialty Hospitals, leading clinicians and industry experts

Industry Experts & Competition

- Access client expertise/ experience
- PwC sector specialists for the identified target industries
- Internal Experts / Proprietary Databases
- Competition Interviews

We'll be conducting primary interviews with following key stakeholders to gain industry insights

Stakeholder Engagement				
Category	**Entities**	**Number (Indicative)**	**Person to be Interviewed**	**Reference companies**
Large Hospitals	Private hospitals (Dedicated Oncology private hospitals and corporate multi-specialty hospitals)	7 - 8	Administrators, Sales Heads	medanta, MAX Healthcare, Apollo Hospitals, Fortis Hospitals, RGCIRC Ethics, Empathy & Excellence, SGRH Sir Ganga Ram Hospital
Consultants	Super-specialists	10 -12	Super-specialist Clinicians	Oncologist (Surgical, Medical & Radiation), Hemato-Oncologist,, Medical Genomics/ Clinical Genetics, Metabolic Diseases Specialist, Neurologist, Endocrinologist, Liver Transplant Surgeon, Urologist (KTP)
Equipment Manufacturers	Equipment vendors/distributors	1 - 2	Marketing Heads, Sales Managers	Elekta, varian
	Total	20-22		

Sample size is indicative and would be updated based on discussion with the client

Key Scope Limitations

- *Given the paucity of authentic data sources, the data will be based on a combination of primary research, secondary research, insights of the PwC team and industry experts*
- *Competitive assessment such as the volumes, pricing etc. will be captured on a best effort basis.*
- *PwC will not take or make decisions or act on behalf of the client.*
- *PwC will not act in the capacity of the client.*
- *PwC will not chair any internal meeting of the client or attend meetings with third parties in place of the client*
- *It will be the responsibility of the client to identify the core member team who PwC will assist on this assignment.*
- *At all times, PwC will not assign responsibilities to the client personnel; act in a supervisory capacity over members of the client project team or act as employees under the supervision of the client*
- *The scope of services shall not include:*
    - *Any legal, regulatory advice*
    - *Representations to any investors or other third parties*
    - *Operational assessment*
    - *Design inputs and design principles*

Team

Our team – Healthcare Services

Dr Rana Mehta
Partner
Healthcare

PwC India, Gurgaon

Masters in Hospital Administration (MHA), Tata Institute of Social Sciences, Mumbai

Bachelor of Medicine, Bachelor of Surgery (MBBS), Medical College, Kolkata

Experience summary

- Dr. Mehta has close to 21 years of experience in strategizing, planning, commissioning and operations of over 50 hospitals and healthcare systems in Asia. He is conversant with the excellence of services expected in the present competitive scenario across the entire healthcare value chain. Worked on numerous assignments to develop customized healthcare solutions to suit client needs within political, socio economic, geographic, and demographic imperatives.
- Dr. Rana has advised Niti Ayog and Bill and Melinda Gates Foundation on defining the policy structure framework for Health Systems Design

Main areas of expertise

- During a decade long stint with Apollo Hospitals, instrumental in commissioning and operating the group's hospitals in New Delhi and Colombo.
- Dr. Mehta has also advised multiple PPP projects in India, South Asia and in other countries like Philippines, PNG, Timor Leste
- Extensive client experience, which includes some of the largest integrated health systems and insurers in the Asia, has allowed him to pioneer innovative solutions that improve quality and cost for all stakeholders in the delivery system – patients, providers and payers.
- Extensively sought after by both international and domestic media on a variety of matters affecting healthcare in the subcontinent

Client served:

IFC, ADB and the World Bank, Max Hospitals, Fortis Healthcare, Hospital corporation of America, all leading health insurance and private equity firms

Dr. Preet Matani
Partner
Healthcare
PwC India, Mumbai

MBA (Hospital Management), Institute of Health Management Research, Jaipur

Bachelor of Homeopathic Medicine and Surgery, Mumbai University

Experience summary

Preet has over 20 years of experience in the healthcare industry with a mix of on ground operations as well as a decade plus of consulting experience. He has worked on projects related to Health systems design, hospital operations, diagnostics, feasibility studies, commercial diligences, PMO's and PPP and bid advisory across multiple geographies.

Main areas of expertise

- Preet has the experience of having worked on ground in hospital operations as well as in the corporate strategy and business planning team of Wockhardt hospitals and understands some of the operational challenges faced in the healthcare industry
- He has spent around 12 years in the consulting industry and has worked with leading healthcare providers, Government departments as well as large private equity funds in the areas of Business Planning, Commercial Due Diligence, Strategy formulation, PPP & Bid Advisory, Operations Optimization & Process
- Countries of Work Experience: India, Turkey, Bangladesh, Philippines, Timor Leste, PNG, Sri Lanka, Singapore, Mauritius, Mozambique, Japan, United Kingdom

Client served:

Parkway Pantai Ltd, Apollo hospitals, Fortis, Max Healthcare, Metropolis, Tata Trusts, Siemens, ICICI bank, IFC, Tata group, NUPCO, USIFC, ADB, GMR group, Port City, Gates Foundation, NTPC, ONGC, Access Health, Regency Hospital, Hiranandani hospital, leading private equity funds like KKR, Baring, Morgan Stanley, NIIF, Partners group, AION, Tata Capital etc.

Our team – Healthcare Services

Sushet Gautam
Director
Healthcare

PwC India, Gurgaon

MBA Healthcare Management, Chitkara University, Chandigarh

Bachelor of Pharmacy, Government polytechnic college, Hoshiarpur, Punjab

Experience summary

Sushet brings 14+ years of experience across healthcare providers and consulting, with deep understanding of industry operational challenges. He specializes in hospital operations, performance improvement, cost optimization, and supply chain management.

- Price optimization for a leading corporate healthcare provider across 16 hospitals in India.
- Revenue enhancement through pricing and revenue-leakage management for a PE-owned healthcare chain in Kerala.
- Operations transformation (cost, price, process optimization and leakage reduction) for a regional chain in Tamil Nadu.
- EBITDA improvement via revenue-leakage plugging, cost optimization, and pricing for a leading healthcare provider in Gurugram.
- Cost and price optimization–led EBITDA improvement for a regional healthcare chain in Uttar Pradesh.

Main areas of expertise

- Healthcare Ops & Performance: Ops transformation, supply chain optimization, cost reduction, EBITDA improvement, revenue leakage prevention, and conversion enhancement.
- Strategy & Growth: Market assessment, market entry strategy, and due diligence.
- Healthcare Delivery & Analytics:Delivery system evaluation, need–gap assessment, and performance/data analysis.

Client served

Fortis Hospital, Artemis Hospital, Meenakshi Mission Hospital (MMHRC), Aakash Healthcare, Sarvodaya Hospital, Regency Healthcare, Baby Memorial Hospital, KKR, RG Stone, HIMSR, CK Birla Hospitals, Parkway Pantai Ltd, Columbia Asia Hospital, CK Birla Group, Sankara Eye Hospital, AINU, Meenakshi Mission Hospital, Sahyadri Hospital, Tata Memorial Hospital, Medicover Fertility, IFC, I Squared Capital, Varian Medical System, Fresenius Medical Care etc.

Varun Karwa
Director
Healthcare

PwC India, Mumbai

MBA (Hospital & Healthcare Management) Symbiosis University, Pune

Bachelor of Commerce, Mumbai University

Experience summary

Varun Karwa is a Director in the Healthcare Advisory at PwC India. He has over 15 years of experience of working in the hospital consulting vertical. He has an extensive experience of market assessment and feasibility in the private organization including corporate hospitals and PE funds

Main areas of expertise

- Commercial Diligence: Worked with multiple PE firms in commercial diligence exercise across multiple healthcare segments covering diagnostic chains, multi-specialty hospitals, single specialty (IVF, Dental, Dialysis, Urology, Ophthalmology)
- Market assessment and feasibility plans: Conducted market assessment and developed business plans across multiple healthcare formats in metro, tier 1 and tier 2 cities
- Worked extensively on market assessment and business plan for both national and international client including corporates, agencies like IFC, JICA, etc..

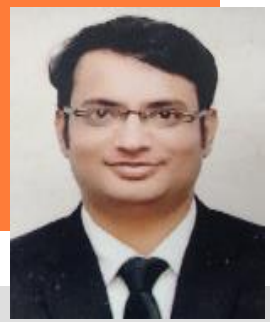
Co-Authored the following papers/ thought

- “Financing and Funding Indian Healthcare – Navigating the turbulent tide” with NATHEALTH
- “Funding Indian Healthcare – Catalyzing the next wave of growth” with NATHEALTH
- “Value Based Healthcare” with The Economic Times
- “Value Based Procurement in Medtech with NATHEALTH and APACMED”

Client served

Morgan Stanley, Multiples PE, Partners Group, Tata Capital, NIIF, Siemens Health Ventures, ADV, Aion Global, IFC, JICA, ADB, Fortis, Global Hospitals, Indo UK Institute of Health, Hiranandani Hospital, Vedanta Group, National Cancer Institute, Wadia Hospitals, L&T, VPS, Nanavati Hospital, Mahavir Hospitals, standalone multispecialty hospitals in project planning phase

Our team – Healthcare Services



Kuntal Mukherjee
Associate Director
Healthcare

PwC India, Gurgaon

MBA Healthcare Management, Chitkara University, Chandigarh

Bachelor of Pharmacy, Government polytechnic college, Hoshiarpur, Punjab

Experience summary

Dr. Kuntal Mukherjee has ~10 years of work experience with more than five years of healthcare consulting experience and around a year of Hospital Operations experience. He has an extensive experience of working on IVD and diagnostics space with projects across the private and public domain

He has also worked on multiple international assignments in countries such as Sri Lanka, Bangladesh, Philippines, Papua New Guinea, Timor Leste

Main areas of expertise

- Market assessment and Product strategy for an upcoming IVD company for 4 areas Molecular Diagnostics, immunoassay, Clinical Chemistry, Haematology
- Market assessment and feasibility for PPP in lab and radiology services in Timor Leste
- Multiple hospital feasibility, business planning and costing projects
- Commercial due diligence on a diagnostics equipment company (focusing on Molecular Diagnostics) covering detailed market assessment, risk overview and revenue forecast review for Market assessment and product strategy for an upcoming IVD company

Client served:

Apollo Hospitals, CK Birla Hospitals, Shalby Hospitals, IFC, SIEMENS, Motilal Oswal, Morgan Stanley, Quadria Capital, USDFC, Pfizer, Tata Trusts, Tata MD, ADB, Indo UK Institute of Health

Ambrish Sharma
Associate Director
Healthcare

PwC India, Gurgaon

MHA, TISS Mumbai

BHMS, Government Homeopathic Medical College, Delhi

Experience summary

Dr Ambrish worked with both healthcare providers and consulting firms has over 14+ years of professional experience. He worked with organizations like Fortis Hospitals, UNICEF, Apollo Group and Leading hospital consultancy firms of the country. Done numerous healthcare assignments for National and International groups.

His project experience includes Market Assessment, Need Gap Analysis, Hospital Planning & Designing, P & L management, Public Health, Hospital Operations & Management.

Main areas of expertise

- Worked extensively on Feasibility Studies for both national and international clients
- Hospital Space Planning and Designing
- Medical Equipment Planning & Budgeting
- Hospital Infrastructure & Operations Audits
- Market assessment & Market entry strategy
- Hospital Commissioning & Operations
- Done hospital projects in the Countries like Myanmar, Middle East, Africa etc.`

Clients served

National Health Authority, IIT Kanpur, ITC, JSW, Godrej, Aurbindo Pharma, HCG, EXIM Bank, IDECK, L&T, NIMS Trust, Golden Zhulekha Group, Shankara Eye, KPMG , etc

In Public Healthcare : NHA, NITI Aayog, Ministry of External Affairs, Ministry of Commerce, Govt. of MP, Govt. of UP, Govt. of Chhattisgarh, Govt. of Maharashtra, NHM etc.

Our team – Healthcare Services

Swapnil Agrawal
Associate Director
Healthcare

PwC India, Gurugram

MBA (Hospital Administration), IMS, DAVV, Indore

BBA (Hospital Administration), IMS, DAVV, Indore

Experience summary

Swapnil is a seasoned healthcare professional with over 15 years of multi-faceted experience spanning hospital operations, business strategy, M&A, diagnostics, and consulting. He specializes in bridging high-level strategic advisory with "on-the-ground" execution.

Prior to his current role, Swapnil had a distinguished stint at Fortis Healthcare, where he first led Strategy & Operational Excellence, driving enterprise-wide frameworks. He then transitioned into Operations and Commissioning, where he spearheaded the operations of a 350-bed quaternary care facility in Manesar, Gurugram. This unique dual-perspective allows him to design strategies that are both ambitious and operationally executable.

Main areas of expertise

- Hospital Operations Transformation: Spearheaded the end-to-end commissioning and operational launch of a 350-bed quaternary care facility at Manesar, Gurugram
- Procurement Transformation: At Fortis, conceptualized and executed a pan-organizational Procurement Transformation program that optimized drug formulary, rate contracts and supply chain efficiencies, delivering over INR 60 Cr in annualized bottom-line savings.
- Commercial Due Diligence: Worked with multiple PE firms, Corporate hospitals groups, diagnostics chains in commercial diligence exercise across multiple healthcare segments covering diagnostic chains, multi-specialty hospitals, single specialty hospitals
- Market assessment and feasibility plans: Conducted market assessment and developed business plans across multiple healthcare formats in metro, tier 1 and tier 2 cities

Client served

IHH Healthcare, Fortis Healthcare, Apollo Hospitals, Redcliffe Diagnostics, Municipal Corporation of Greater Mumbai, ONGC, BJ Wadia Hospitals, Sunshine Hospitals, Sterling Hospitals, leading private equity firms – Baring Private Equity Asia, ADV capital

Krunal Mehta
Senior Consultant
Healthcare

PwC India, Mumbai

MHA –TISS (Tata Institute of Social Science),Mumbai

Bachelors of Occupational Therapy – D.Y Patil Medical College, Navi Mumbai

Experience summary

Krunal Mehta has ~8 years of work experience with more than 4 years of healthcare consulting experience . He has an extensive experience of working on hospital, IVD and diagnostics space on projects such as Market assessment, Commercial diligence, strategy development, Business performance optimization, project management, and feasibility with leading players

Main areas of expertise

- Commercial Diligence: Worked with multiple PE firms in commercial diligence exercise across multiple healthcare segments covering diagnostic chains, multi-specialty hospitals, single specialty (IVF, Dental, Dialysis, Urology, Ophthalmology)
- Market assessment and feasibility plans: Conducted market assessment and developed business plans across multiple healthcare formats in metro, tier 1 and tier 2 cities
- PMO for integration of 8 hospital-based labs and 1 standalone lab to create a fully automated track-based integrated reference lab for one of the leading healthcare group
- Growth Strategy for a leading Global IVD company in accelerating their footprint in the public sector in India Opportunity identification and prioritization, opportunity sizing, Go to Market (GTM) Strategy development

Client served:

Tenet Diagnostics, Atulaya Diagnostic & Imaging,
Apollo Hospitals, Apollo Diagnostics,
